

NEW RELEASE FROM DOWNCHILD'S GARY KENDALL

"Feels Real Strong" Delivers the Blues with Power and Confidence

Gary Kendall feels the blues. Strongly. And it's no wonder, given that he's been mining a rich vein of blues much of his life as a master bass player in one of the most successful, well-loved blues bands in music history. In many ways, Gary is the definition of classic blues in Canada.

In this, his second much-anticipated album, the strength of Gary's command of traditional blues, slow grindin' rock 'n' roll, and even jump-up zydeco grooves, finds full expression. *Feels Real Strong* comes on strong with tracks that presents even more of Gary's abundant musical talents, including fun, and sometimes emotional lyrics, surrounded by wicked, full-bodied arrangements delivered by a powerful ensemble of musicians who will make you feel the blues strongly. These cats had lots of fun making this record and you'll feel that, too.

Feels Real Strong invites you to embrace the strength of real blues music authentically and faithfully presented by a man who lives it, loves it and can't shake it loose. It's just too strong.

The Gary Kendall Band
